

## Keeping up with Workforce Dimensions releases shouldn't feel like a race against time.

### Test your deployment, not your patience.

Ensuring every Workforce Dimensions release your team deploys is accurate and reliable shouldn't feel like a race against time. But, with so many other business-critical commitments on your team's plate, squeezing testing in at the end of every release seems like your only option. Or is it?

### Test everything. Sacrifice nothing.

TestAssure lets your project team build and automate test scenarios faster than ever with pre-built automations developed exclusively for Workforce Dimensions. And, with an intuitive user interface, automating your Workforce Dimensions testing has never been so effortless.

Your team can keep pace with constant Workforce Dimensions updates and stay ahead of configuration changes, while empowering your people to test everything under the sun — without sacrificing quality.

### Inspire confidence!

TestAssure allows your team to test quickly and often, so you can regression test EVERY change that's made to the Workforce Dimensions platform. Straightforward reports with drill-downs provide you with visibility and insight into the tests that are run, so you will always

know exactly what has been tested. You and your stakeholders can have the confidence that your system is always functioning as expected.

### Spend less time testing, more time delivering.

**Faster** — Cuts testing time by 90%

**Easier** — Build tests without writing a line of code

**Better** — Pre-built and maintenance free

**Proven** — Built with 20+ years workforce management testing experience

### Backed by the ONLY Workforce Dimensions Automated Testing Partner.

Our cloud-based service is maintained in lock-step with Workforce Dimensions. Every time Kronos issues a release, we automatically update TestAssure, allowing your team to always be ready to test system upgrades. No other testing solution can do that.

*“TestAssure helped us hit our project deadline and allowed us to save costs on delivering Workforce Dimensions, without sacrificing the quality of the solution.”*

*Product Manager  
Fortune 20 Retailer*

## Stay ahead of Workforce Dimensions updates and deliver quality! Everytime!
