

# TestAssure Automated Testing

How TestAssure helps UKG customers overcome resource constraints and successfully deliver WFM & HCM projects on time and budget

## How Much Time Are You Spending on Your WFM Testing?

Are you spending way too much time doing Workforce Management (WFM) testing? Or are you taking on unnecessary risks because you're not fully testing each release? Consequently, do your WFM releases suffer from poor/inefficient testing, painful escalations, and delayed project timelines?

Many UKG customers often don't realize they are responsible for testing until it's too late. And very few know how to test their WFM or HCM solution effectively. They realize that:

1. They lack the time and resources to get testing done on time and on budget.
2. They are not testing experts and often don't know how or where to start.

## What TestAssure Provides

- ✓ **Curated Library of UKG Specific Test Cases**  
Reduce dependencies on your SMEs by leveraging thousands of test case templates covering the most high-risk, pay impacting areas of your business.
- ✓ **Pre-Built Test Automation**  
Save time by writing automated tests in plain English with no coding. Leverage our pre-built UKG automations to run thousands of tests in minutes. Never waste time running manual tests again!
- ✓ **Easy to Use & Purpose Built Testing Platform**  
Access our proven UKG testing process through our real-time Google cloud-based automated testing platform. Quickly write, edit, and run customer specific tests using powerful features e.g. global search & replace, mass edit, personas, test case templates, and more.

## How TestAssure Can Help Your Business

### 1 Test Planning

- Testing Scope
- High-Level Timelines
- Test Approach
- Test Data Management
- Defect Management
- Roles and Responsibilities

### 2 Test Writing

- Functional Testing
- Systems Integration Testing
- Parallel Testing
- User Acceptance Testing
- Regression Testing

### 3 Test Automation

- Pre-Built Automations
- No Coding Required
- Run 1000s of Tests in Minutes

Available immediately with a simple UKG change order
