Notifications are grouped by comment notifications, Test Builder notifications, and Test Plan execution notifications.

01. Functional Testing (WFM) / 04. 10 Hour Rule / 01. - 10 Hour Shift with 30 min Break

### 01. - 10 Hour Shift with 30 min Break

ID: 453420

**Given** I am a Hourly Employee

- and My schedule rule set is TA-TeamMember
- and I was hired 1 months ago today

**When** I am assigned the following shifts for Current Schedule Period

* Day	* In	* Out	Segment Type
2	8:00 AM	11:30 AM	Regular

Test Case Comments tab shows:

- Unread Replies: unread replies to your comments
- Unread Mentions: unread comments in which you were mentioned (using the @ symbol)
- Unread Subscribed: all unread comments to tests that you are subscribed to
- All: all the above, read or unread
- The "Search all comments..." field allows you to search against all comments made (comments for you or other users)

Clicking on a comment will load the test case in the right pane; clicking on the test name will navigate you to the test. A filled blue circle on the comment indicates it is unread. A hollow blue circle indicates the comment has been read.

Notification Center link is accessible by all users.

# License Management Improvements

### Employee Deletion Schedule

Scheduled Delete Time ( ET ):

Minimum Retention Days:

Frequency:

Last Run: 06-14-2023 01:25:39 PM

Last Status: Successfully deleted 0 employees

Licenses Available: 97,528 / 100,000 Hourly Timekeeping Entitlements

Employee Deletion task is currently running. 0% ( 1 out of 15 ) completed.

The Employee Deletion Schedule popup now shows the following information:

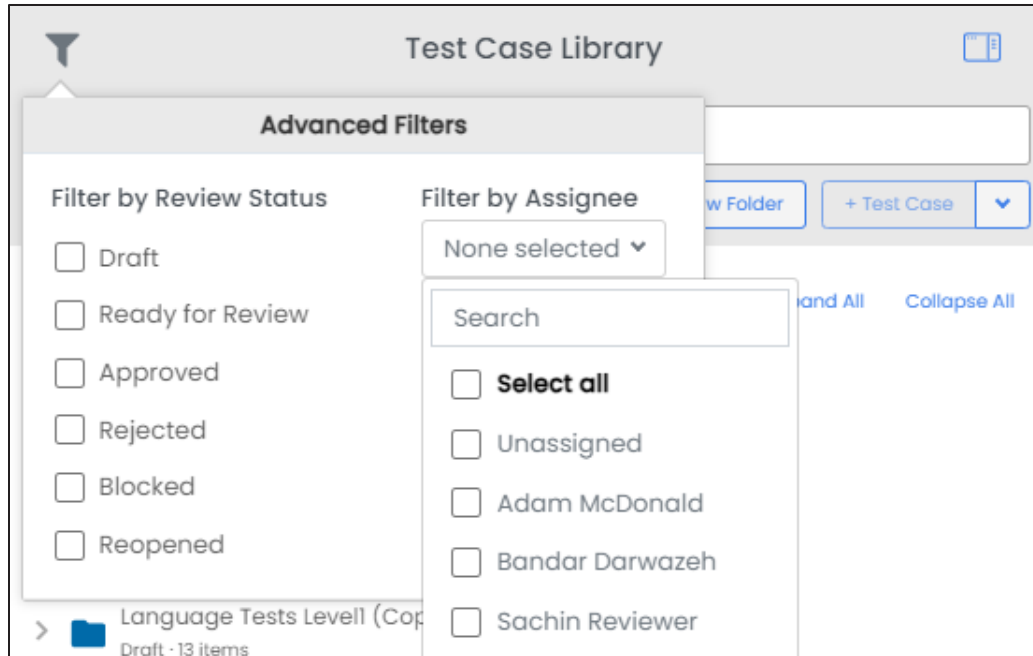

- The last run date and status (with error message if it failed).
- The number of Hourly Timekeeping licenses available.
- The current delete status (percentage complete and number of employees deleted).

Once started, the Delete button is disabled until the job completes.

Users will now get a warning when they execute more tests than the available licenses. They will have the option to delete employees or continue with the execution.

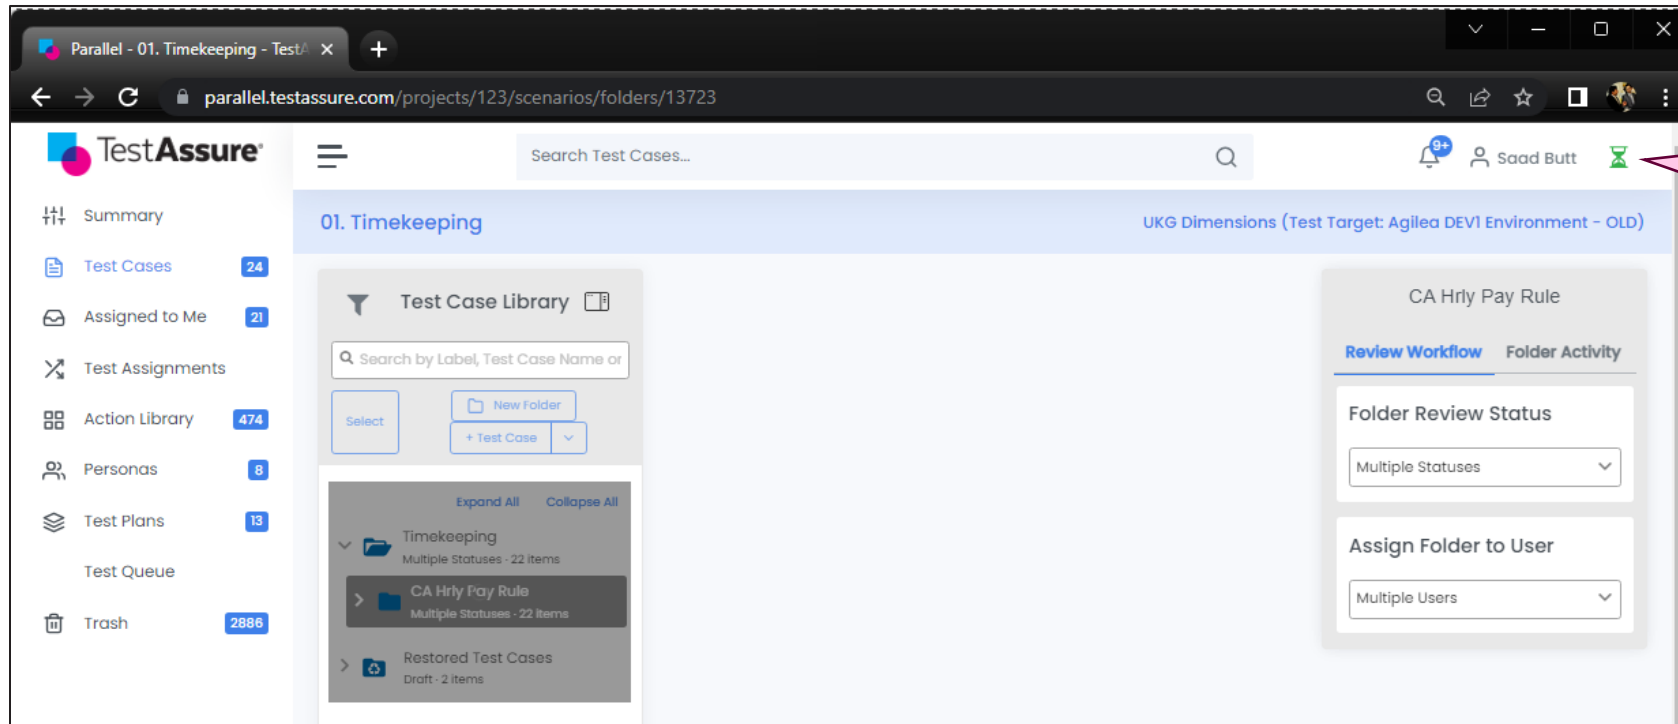

# Filter by Assignee

- Allows you to filter for unassigned tests. It also allows you to filter by multiple assignees.

# Work Queue Indicator

Work queue icon indicates the system is busy completing operations (such as updating tests in bulk, duplicate tests, etc.).

In subsequent releases, hovering over this icon will indicate the operation the system is completing.
