

# Q2R11 Release Update

June 27 , 2023

*The following information is TestAssure Confidential and subject to change. It is intended to outline our general production direction, provided for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions. The development, release, and timing of any features or functionality described for TestAssure products remains at the sole discretion of TestAssure.*

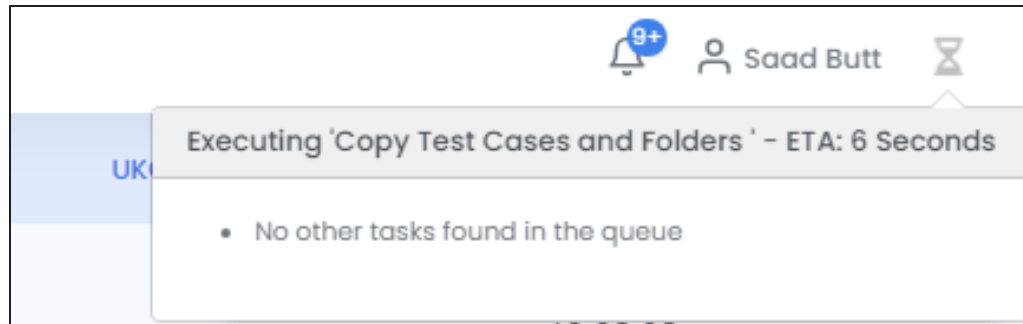

# Features List Summary

- **Work Queue**
  - Provides information on tasks the system is busy processing.
- **Manual Test Suite Dashboard**
  - Dashboard updates for custom (manual) Test Suites
- **New Language Packs**
  - French, German and Spanish translations available upon request
- **Toggle Duration Value Format**
  - Can set duration values in either decimal (HH.hh) or hours and minutes (HH:MM) format

# Work Queue

- In the last release, the Work Queue icon (hourglass) was added to indicate when system is busy completing user-triggered operations (such as duplicating tests).
- In this release, hovering over this icon will indicate the operation in progress.
- Clicking on the icon will show an ETA along with additional operations in queue, if any.

Description

Default Profile  True  False

Home Page\*

Duration Format   Display durations in minutes format (HH:mm)  Display durations in decimals format (HH.hh)

- Test Builder generated tests and the Show Details popup in Test Plans will now show duration values based on the duration format in the superuser's display profile.
- As a best practice, this setting should be determined at the beginning of the project to avoid having to do extra rebuilds.
