AUTOMATED TESTS

Previously, the actual results of a test execution were only shown when the test failed.

Now, the user can also see actual results when the test passes via the Show Details button. This will provide additional proof of why the test passed.

The “For Audit” checkbox enables cataloging and archiving test results for future reporting features. This box should be checked if the test plan contains regression tests, or if the plan includes tests significant for reporting needs. At the moment, the effects of this checkbox cannot be seen until additional reporting features are released in the near future.
