# New Features

- Accrual Code Filter
- \*NEW\* Persona Field
- Access Profile Warning
- Bulk edit Labels in Global Search
- Persona Importer Role
- Persona duplicates to new suites

# Accrual Code Filter

Then

\* Day Number =

\* Symbolic Period =

Accrual Code Filter =

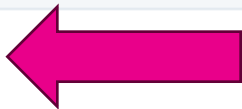

* Accrual Code	* Available Balance	Current Probationary Balance
Sick Day	0.00	0.00
\$1_TA AccrualCodeDays	0.00	0.00

- The follow action has been updated to only show selected accrual codes when testing accruals
- The filter field will accept multiple accrual codes separated by a comma
- The exact code as displayed in configuration is how the accrual code should be entered in the filter. If not, the user may run into errors such as "Invalid Accrual Code Filter"
- If the user does not want to use the filter, they can leave the Accrual Code Filter field blank, and this will bring back all Accrual codes

# \*NEW\* Persona Field

Supervisor Duplication	
Supervisor Name	Ivan, Sean Z
Supervisor Person Number	Z10004
Time Entry Activity Tracking Status	
Time Entry Type Name	Time Stamp & Hourly View
Time Zone	(GMT -05:00) Eastern Time

- Users now have access to the new “Time Zone” field in the Persona.
- This field mimics the GIVEN action “My primary job time zone is <Time Zone>.”
- It is currently mandatory; in the future, it will not be required and by default, employees time zone will be set to EST.
- This field accepts the time zone name in the same format as specified in the Application Setup > System Configuration > Time Zones table.

# Access Profile Warning

## Persona Access Profile Warning ✕

Ensure this access profile 'Super' DOES NOT have Design Integrations set to Allowed. Otherwise, all test employees created will be synchronized over to Boomi and have material impact on Customer.

Contact [support@testassure.com](mailto:support@testassure.com) if you have any questions.

- Users will receive a warning when saving a persona that includes the words "super" or "admin" in the access profile.
- Please ensure that the access profile does NOT have Design Integrations set to Allowed, otherwise all test employees created will be synced to Boomi.

# Bulk edit Labels in Global Search

- Users that would like to use the “Autofill from Test Target” option will now need the User Role, “Persona Importer”.
- Without this role, the user will not be able to see the autofill button when editing a persona.
- Note: “TestAssure Partner” users ARE able to add this role to their own accounts
- See the [User Roles article](#) for more information.

# Persona Duplicates to test suites

Duplicate to Test Suite ✕

Select the destination Test Suite to duplicate 2 Test Cases:

01. Timekeeping ▾

Selections are limited to the same software product and version

Please choose how personas should be applied to the duplicated test cases:

Duplicate the Test Case persona to the Test Suite

Assign all Test Cases the following persona

Cashier ▾

Assign all Test Cases with no persona

Close Submit

- Previously when a user would duplicate test cases to a new test suite it would make a new persona for each test
- When duplicating tests to a new suite we now give the option to:
  - duplicate the persona to the test suite
  - assign a persona (with the drop down menu)
  - assign all test case with no persona
